Avalon is Danielle's first experimental, short-film project- a collaboration between filmmaker **Allan Harding MacKay** , choreographer/ dancer Anita Miotti and herself. Meeting Allan Harding Mackay during his performance of *Somalia Yellow* with Calgary theatre company One Yellow Rabbit , Danielle approached Allan about filming this "music video/ short film" project, for lack of a better term. *Avalon* will is to be released and submitted to various film festivals and potential viewing outlets. Danielle is very interested directing, producing and/ or collaborating on short films to her music and is currently in the planning process of several film projects that will represent some of the material on *Piece* .
